

## OrganoKleen Degreaser

### DESCRIPTION

A biodegradable degreaser that will effectively clean all hard surfaces which can be cleanse with water. It is non-toxic, non-polluting and non-hazardous formulation that will emulsify hydrocarbon, grease, oil, fats, lipids and proteins. It accelerates biodegradation and detoxifications through emulsification. It also removes odour.

Suitable for use in pressure wash system and contains corrosion inhibitor preventing corrosion to equipment and cleanse surfaces. Effective in soft, hard and salt water environment

### PACKING

OrganoKleen is packed in 200kg drum or 1000kg IBC tank.

### PRODUCT SPECIFICATION

Physical aspect	Yellow color liquid
pH	9.0-9.6
Specific Gravity	1.0
Solvent	Water

### RECOMMENDED APPLICATION

- Light degreasing of hydrocarbon contaminated surfaces in engine rooms, storage tank, workshop floors.
- Engine, gearbox, pumps, generators and hydraulic equipment.
- Industrial food processing and preparation facility.
- Restaurant, function rooms, conference facility.
- Domestic cleaning in kitchens, toilets, dining, gym, grouting between tiles etc

### USAGE GUIDE

- Dilute 1:2 for light cleaning and apply neat for heavy cleaning.
- 1 liter removes up to approximately 9 liters of hydrocarbon.
- Spray on and agitate lightly and pressure wash where available.
- Operates between pH 4 to 11 and in varying temperatures it will perform
