

OrganoKleen Heavy Degreaser

DESCRIPTION

A biodegradable heavy degreaser that will effectively clean all hard surfaces which can be cleanse with water. It is non-toxic, non-polluting and non-hazardous formulation that exhibits strong penetrating and emulsification action for grease, oil and tar. With additive that promotes greater emulsification activity it accelerates and detoxifications through emulsification and removes odor at the same time.

Suitable for use in pressure wash or foaming system. Contains corrosion inhibitor preventing corrosion to equipment and cleanse surfaces. Effective in soft, hard and salt water environment. Not suited for general cleaning.

PRODUCT SPECIFICATION

Physical aspect	Yellow color liquid
pH	9.0-9.6
Specific Gravity	1.0
Solvent	Water

RECOMMENDED APPLICATION

- Heavy degreasing of hydrocarbon contaminated surfaces in engine rooms, work shop floors, lubrication points and diesel fuel points.
- Crude pumps facility.
- Storage tanks.
- Grease sumps and convertors.
- Ventilators in industrial kitchens.

USAGE GUIDE

- Dilute 1:2 to 1:4 for normal cleaning and apply neat for heavy cleaning.
- 1 liter removes up to approximately 9 liters of hydrocarbon.
- Pressure wash where available.
- Operates between pH 4 to 11 and in varying temperatures it will perform.

PACKING

OrganoKleen is packed in 200kg drum or 1000kg IBC tank.

CLASSIFICATION

Non-hazardous
