AXCIDE

TCMTB - WBSO

GENERAL

TCMTB-WBSO is water based and non-lachrymatory fungicide. It consists of 30% solution of 2-thiocyano methylthio-benzothiazole. It is highly effective against a broad spectrum of fungi and bacterial growth in the wet state. In general, this product is used in diluted form for preservation of Wet Blue and Wet whites as well as wood preservation.

Product Description 2-(Thiocyanomethylthio) benzothiazole in water based.

SPECIFICATIONS

<u>Properties</u>	<u>Typical Value</u>
Appearance :	Opaque off white viscous emulsion
Assay, % (as active ingredient) :	30% min
Specific Gravity @25°C:	1.05-1.15g/cm ³
pH	2.0-3.0
Boiling Point,	> 100 °C
Decomposition Temperature	> 60 °C
Flash Point	Not Flammable

It is stable under normal storage conditions but decomposes at temperatures above 60°C.

PACKING

Available in 1100kg bins or 220kg plastic drum.

APPLICATIONS

In Wet Blue and Wet White, TCMTB-WBSO is normally added as an 80:20 split in the pickle and wash. In advantages, this product also can be safety applied by spray application. The recommended dosage is at 0.08 to 0.12% for local use, and 0.12 to 0.18% for export use.

TRANSPORT INFORMATION

Not regulated.

The above information is, to the best of our knowledge, true and accurate, but any recommendations or suggestions which may be made are without guarantee, since the conditions of use are beyond our control.
