OIL SPILL DISPERSANT

OCEAN-CARE 82

GENERAL

OCEAN-CARE 82 is specially formulated for marine industries. It is a biodegradable water based oil spill dispersant with high dispersing efficiency and low toxicity. It is recommended use for heavy crude oil slicks at sea as well as for cleaning on deck after oil spillage. This product has complied with the specifications of Dispersant listed for Prevention of Pollution of Sea (Oil Pollution Preparedness, response and Co-operation) Regulations of the Maritime and Port Authority of Singapore.

| Product Name | OCEAN-CARE 82 |
| Description | Biodegradable water based oil spill dispersant. |

SPECIFICATIONS

| <u>Properties</u> | <u>Typical Value</u> |
|----------------------------|---------------------------|
| Appearance: | Clear light yellow liquid |
| Specific Gravity at 25 °C: | 1.00 – 1.12 |
| pH at 25 °C: | 4.0 – 10.0 |

PACKING

200 L per drum.

APPLICATIONS

OCEAN-CARE 82 is a water based product used on heavy crude oil slick at sea as well as for cleaning on deck after oil spillage.

Oil Spill at Sea-It is used undiluted by direct spraying in the form of fine droplets that are spread over the contaminated sea-surface. It can spray by hand, workboats with mounted spray boom, or fire hoses with injectors. It will take some time for the oil to absorb.

Oil on Beaches and Shore Line-It can apply undiluted by spraying over the oiled areas. After about 5-10 minutes, then wash down the beach or rocks etc.

Oil Spill on Deck- For small spillage on deck or minor oil slick in harbours etc, flicking a brush wetted with chemical will sufficient. Later on deck or ashore the spillage is flushed away with plenty of water.

TRANSPORT INFORMATION

Not regulated.

The above information is, to the best of our knowledge, true and accurate, but any recommendations or suggestions which may be made are without guarantee, since the conditions of use are beyond our control.
